

HALOS – a totally new concept...

Designer, portable heaters with natural radiant warmth

Stylish efficiency, and yes, they are portable and wall mountable!

Welcome to a bright new world of portable home heating. The HALOS is the flexible, simple, and highly effective solution to ensure cosy ambient warmth, exactly where and when needed. With hi-tech designer appeal and a unique heating front screen, the HALOS is perfect for both occasional or long term use. And not just a pretty face, incorporating Radiant Heating and the exclusive QuickSun technologies, a superior degree of efficiency ensures evenly distributed warming to provide natural and welcoming heating.

Available in two power setting: 1000W and the 1500W model, which has two power settings, 750W and 1500W. Both models are regulated by a fully adjustable ambient thermostat.
