

CALI *Avanti*

New 2012 Improved Technology, Quality & Styling

Thermodynamic fluid filled - low energy consumption, slim-line electric radiator

Slim and classically stylish to suit any interior

High performance – low energy consumption

Evenly diffused warmth for maximum comfort

Smart, integral ergonomic 7-Day programmer

Clear LCD display, back-light and child lock

Durable high quality European components

Top quality, thermo-efficient aluminium body

European CE and superior NF certifications

Easy to install, no plumbing or maintenance

The Friendly heating

The slender contoured lines, superior energy efficient performance and warming ability complete with full seven day programming makes this an exceptional electric radiator. Used just to warm an additional room, an entire home or commercial property, the CALI *Avanti* comfortably satisfies all needs. A thermo efficient design and the precise intelligent thermostat ensures maximum energy efficiency, which once the set ambient temperature is reached, only draws minimal, periodic amounts of energy to maintain a constant level of warmth. This multi-option programmable thermostat accurately controls the ambient temperature thanks to an advanced microprocessor that regulates your set temperatures without being influenced by the temperature of the radiator. Programming is simple and the stylish sloping display panel allows clear viewing of all settings.

Watts	Height	Width	Depth	Product Code	Price
950	580	610	90	CAV 0950	£325
1200	580	770	90	CAV 1200	£350
1500	580	930	90	CAV 1500	£395
1800	580	1090	90	CAV 1800	£425
