Sleek & minimalist, quality components, advanced technology, it's exceptional value for money! Natural warmth is rapidly distributed, precisely controlled by an intelligent thermostat to ensure low energy use. Analogue, or optional low-cost kits available enabling wireless, central 7-day programming for each radiator.

Watts	Height	Width	Depth	Minimum order: 6 Radiators	
500	415	462	86	ST 0500	£190
1000	415	700	86	ST 1000	£215
1500	415	950	86	ST 1500	£250
2000	415	1150	86	ST 2000	£290

A stylish, energy efficient high quality radiator with analogue thermostat controls, two turn dial controls for temperature and mode settings. Fully compatible with our ZoneRay or iGreen central programming systems, ideal when many radiators are needed. Also available with a LCD 7 day programmable thermostat.

Watts	Height	Width	Depth	CALI Classic	Price
950	580	690	85	CALI CL 0950	£290
1200	580	850	85	CALI CL 1200	£320

1800	580	1170	85	CALI CL 1800	£395

The Roma II - Clean classical Italian styling that easily compliments both modern and traditional interiors. Equipped with highly advanced technology to ensure maximum energy efficiency and fully programmable with the optional infrared remote iController.

Watts	Height	Width	Depth	ROMA II	Price
900	590	685	85	RM20900	£320
1200	590	850	85	RM21200	£370
1500	590	1010	85	RM21500	£395
2000	590	1255	85	RM21800	£465

The Firenze is inspired by Florentine architecture, the sexy curved lines of this radiator combines unique designer appeal with the latest technology to ensure naturally emitted heating at minimal running costs. This is a radiator that you will not want to hide.

Watts	Height	Width	Depth	FIRENZE	Price
900	TBC	TBC	80	FZ0900C	£340
1200	TBC	TBC	80	FZ1200C	£390
1500	TBC	TBC	80	FZ1500C	£440
1800	TBC	TBC	80	FZ1800C	£490

All prices exclude VAT and delivery: £80 per pallet up to 8 radiators, delivery charge of 1 to 3 radiators: £15 to £45, delivery to the far reaches of the UK may cost more. All dimensions in millimetres.

TOTAL CONTROL at your fingertips...

ZoneRay

Central Programming

A cool user friendly central control system managing of up to 6 zones, enabling different timings and temperatures to be set for each zone, for each day, over a 7 day period, which is automatically repeated. A wireless version ideal for retrofit systems, and a wired version best suited to new-builds and redevelopments.

ZoneRay (priced per component)

Central Programmer	£125.00
Receiver (Per Radiator)	£33.00

The Italia Range

Roma II

The iController £75

ADVANCED 7 day remote programmer

In addition to manual settings, the ROMA II is equipped with a built-in receiver compatible with the above controller, a user-friendly infrared remote controller that enables you to programme the hourly timings and temperature settings of each radiator for each day over a 7 day period, repeated every seven days.

Firenze

Integral 7 day LCD programmer

A precise thermostat automatically regulates set heating requirements and the discrete, easy to operate LCD programmer enables multiple programming options.

iGreen
Total energy control

The ultimate energy management system. Central programming and control of each individual radiator or zone and monitoring of actual energy use

and running costs in real time with historic data. See full details at:

600	1200	500	80	BAL LCD 600	£350

BALNEUM

Thermodynamic Fluid filled

An effective, durable radiator ideal for commercial premises. In addition to uniform surface heating, the upper vents increase heat circulation by up to 10% and an intelligent thermostat ensures that only the precise amount of energy is used to maintain the set temperature. Controlled by analogue settings, or by our ZoneRay or iGreen central programming systems.

PLANO & DEKO

With Intelligent Thermostat, temperature and mode controls

These unique radiators provide soft heating via radiant elements that guarantee a truly uniform level of warmth. With advanced OptiPower technology, each radiator has two heating systems regulated by a precise thermostat which quickly reacts to any ambient temperature variation, this minimizes energy consumption and ensures cozy, comfortable and natural heating.

New Infrared **ZoneMate**
ONLY £75! For use with PLANO & DEKO

A simple yet comprehensive 7-Day remote programmer to set timings and temperatures for each radiator.
