NOTES:

Please contact your INTELLI HEAT Representative should your property have additional areas or a particular feature not provided for in this survey form, such as irregular construction, a double height ceiling with an open gallery area or a vaulted apex ceiling.

Pease note that unless otherwise requested our heating calculations will be based on the following CELSIUS degrees: Living areas at 21, Bathrooms at 22. Bedrooms, Kitchens, Hallways and Landings at 18. The heating plan specified will be based on the information and measurements you provide, it is your responsibility to ensure to ensure that all such information is correct therefore we cannot be held responsible should that information be incorrect. For your safety, installation should only be undertaken by a competent person in accordance with current I.E.E Regulations, please contact your INTELLI HEAT Representative for further assistance or information.
